DR. DEBORAH
LONGWILL

THE MIAMI CENTER FOR DERMATOLOGY

MIAMI, FL (February 13, 2019) – [Dr. Deborah Longwill](#) DO, FAOCD has served the South Florida community for over 25 years as the founder and lead physician at her private practice, [The Miami Center for Dermatology](#) located at 7700 SW 104th Street. The Miami Center for Dermatology specializes in a holistic approach, which involves first listening to patients' concerns, then thoroughly diagnosing and explaining their individual treatment options with both short and long-term personalized treatment plans. These plans are tailored to each patient's unique skincare needs, lifestyle factors, environment and other pertinent clinical considerations to further maximize results.

Dr. Longwill offers the latest and most effective, advanced-technology procedures, lasers and injectables as well as skin cancer treatments from her state-of-the-art facility in Pinecrest. The center's talented team specializes in innovative and non-surgical procedures to deliver synergistic results for clients, treating all generations from newborn to mature skin.

The board-certified dermatologist has removed the anxiety that typically comes with a visit to a doctor and transformed the experience through her serene and spa-like practice which includes a whole wing dedicated just to facials, a photo studio and 14 treatment rooms. The 10,000-square-foot building is complete with its own private valet and three relaxing waiting rooms. In addition, the luxurious space is adorned with her family's art collection as well as scenic photographs shot by Dr. Longwill and showcased as backlit ceiling tiles in each treatment room to ensure a peaceful patient experience.

The center specializes in **cosmetic dermatology**, which focuses on improving the appearance of the skin, hair, and nails. Dr. Longwill offers cutting-edge body contouring, skin tightening and fat reduction as well as procedures designed for specific skin concerns such as aging, acne, and spider veins with an arsenal of the latest technological advancements in aesthetics including CoolSculpting, Botox, Micro Needling, Kybella, Juvederm, Ultherapy, Laser Hair Removal, Fraxel, Tattoo Removal and more. Her experience and intuitive artistic eye combine procedures and treatments that work synergistically to produce and naturally enhance the patient's results. Additionally, Dr. Longwill's vast experience in **medical dermatology** tackles a wide-range of skincare problems and provides patients with an effective yet natural-appearing skin care regimen tailored to their needs.

Having served the South Florida community in private practice since 1992, Dr. Longwill has developed a loyal patient following. After graduating with a Bachelor of Arts from George Washington University, she obtained her Medical Degree from the Southeastern University of Health Sciences College of Osteopathic Medicine. Dr. Longwill became Board Certified in Dermatology in 1992, bringing expertise and the very latest treatments to her patients. Dr. Longwill supports her community, lending more than just her dermatological expertise. She commits time to mentoring medical, physician assistant, nurse practitioner and high school students, as well as medical residents. She additionally contributes her wealth of knowledge to the community giving lectures and educating on all dermatology and cosmetic related topics.
